

Examination Guidelines

B.Tech. • NMAMIT, Nitte • Source-based summary

Exam structure

- For standard credit courses in the cited regulations, Continuous Internal Evaluation (CIE) carries 50% and Semester End Examination (SEE) carries 50%.
- For non-PBL courses, the cited scheme includes quizzes/tutorials/assignments/seminars etc. and two mid-semester examinations within CIE; the exact component distribution is announced by the course instructor.
- For PBL/IPCC courses, the cited scheme includes project-based learning, mid-semester examinations and other continuous components.
- The instructor is required to announce the evaluation scheme and conversion method within the first week of the semester.

Eligibility to write SEE

- Attendance and CIE requirements must be satisfied.
- CIE qualifying standard: at least 40% (20/50 in a 50-mark CIE scheme).
- SEE qualifying standard: at least 40% (20/50 in a 50-mark SEE scheme).
- Final pass standard: at least 40% of the course maximum marks in the cited 100-mark scheme, together with the stated CIE/SEE qualifying requirements.
- Attendance below 75% in a course results in N grade and no SEE eligibility for that course.

Absence, make-up and supplementary/backlog

- A student with attendance $\geq 85\%$ and CIE $\geq 70\%$ who misses SEE for a valid reason accepted by the College may receive an 'I' transitional grade and may be permitted to write a make-up examination after submitting required supporting documents.
- The cited regulations require supporting documents/request to the Controller of Examinations within 2 working days of the missed examination for such make-up permission.
- Students who fail SEE may appear in subsequent backlog/supplementary examinations under the applicable rules; the regulations distinguish these from ordinary re-examinations.
- A student with an F after satisfying attendance/CIE may write a subsequent backlog examination without repeating the course for attendance/CIE, subject to the regulations.

Exam hall and malpractice

- Students must be inside the examination hall 20 minutes before commencement of the examination.
- Students are not allowed inside after the examination has commenced, according to the cited regulations.
- Unfair means/malpractice in an examination is reported to the Controller of Examinations for appropriate action.
- The disciplinary framework allows penalties proportionate to the offence, including reprimand, debarring from an examination, rustication or expulsion in serious cases.
